

Timeline of computer animation in film and television

I want to build a website that goes over the timeline of how CGI has evolved from its conception in the 1960's to now. I will break the site into pages by decade.

- Homepage/definition/summery
- 1960's and 1970's
- 1980's
- 1990's
- 2000's
